Career Objective

Enthusiastic and detail-oriented Computer Science graduate with a strong foundation in Python programming. Eager to apply my knowledge and skills in a dynamic internship role where I can contribute to real-world projects and continue learning.

Technical Skills

- Programming Languages: Python, HTML, CSS, JavaScript
- Tools & Libraries: Pandas, NumPy
- Version Control: Git, GitHub
- Databases: SQLite, MySQL
- Operating Systems: Windows, Linux
- IDEs: VS Code, PyCharm

Academic Background

Bachelor of Science in Computer Science
Sage University , Indore | 2021 – 2025
CGPA: 6.8/10

Projects

1. Farmer's Friend – Agriculture Support Platform (*Django + HTML/CSS + APIs*)

- Built a web platform to assist farmers with services like crop suggestions, weather updates, market prices, and AI-powered pest detection.

- Integrated OpenWeatherMap API for weather forecasting and Google Cloud Vision for pest image analysis.
- Developed features like login/signup, soil test upload, and direct farmer-to-consumer marketplace.
- Aimed at improving agricultural productivity through digital tools.

Certifications

- Python for Everybody – Coursera
- Introduction to Git and GitHub – Coursera

Achievements & Extra-Curricular Activities

- Participated in college coding competitions and hackathons.
